About Innovation OnBoard

Innovation OnBoard is a non-profit, student-run competition for fostering innovation in applied science. It provides opportunities for UBC students to get involved in fun and engaging seminars and workshops where they can take their business ideas from bench to trench.

The competition runs from September, 2017 to February, 2018. During this period, there are 7 seminars and workshops, an innovation fair, and a final competition with reception. The cumulative expected turnout is over 1000 people including students, faculty members, and industry leaders.

Your generous support provides a defining educational experience for UBC students. Participants will gain hands-on experience, leadership training and organizational skills that are not covered in a traditional, classroom setting. Students will develop an entrepreneurial mindset which will add value to the companies that hire them. We greatly appreciate your sponsorship and thank you for investing in the UBC community.

Supporting Innovation OnBoard

Sponsorship will help provide the resources necessary to organize and run these events. Your support enriches the educational experience of UBC students and is an investment in future engineers, entrepreneurs, and innovators. As a token of our appreciation for your support, we can offer you marketing opportunities and invitations to UBC networking and industry events. We welcome gifts in kind and are open to accommodating requests outside of this package to meet your organization's needs.

Please do not hesitate to contact us for more information.
